# QUALITY COMES FIRST

With quality details throughout and the features your customer will appreciate, NorthPoint Cabinetry is built to last.

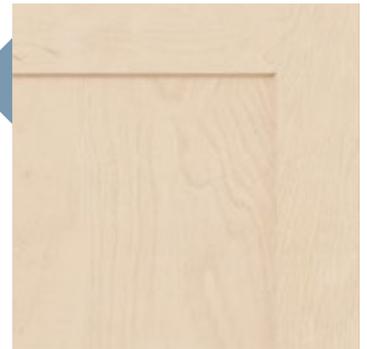

## Thoughtful Craftsmanship

Meaningful yet hidden reinforcements—like solid wood corner blocks and strategically placed pocket screws—help reinforce the structural integrity of the cabinet. These cleverly designed cabinets boast an innovative dovetail and hidden pocket screw construction that provides robust quality and quick, accurate assembly.

## Quality Materials, Ready to Finish

Our cabinets are built with high-quality materials, featuring an all-wood construction. Face frames and door/drawer frames are solid Birch, and door panels are Birch veneered. The cabinet box is 7-ply Birch plywood. All exterior surfaces are ready to finish with minimal prep. Interior cabinet walls have a premium UV-coating that is durable and lets the natural Birch wood shine.

## Premium Features

Our drawer boxes feature dovetail joinery, a UV finish, and smooth full-extension concealed slides, reflecting high-quality furniture standards. Discreet compact hinges and concealed undermount slides are third-party tested to exceed industry benchmarks for durability and performance.
