Omega National  
PRODUCTS

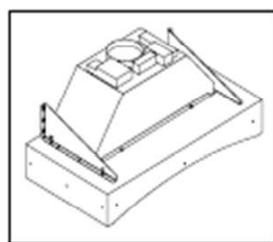

**EASY TO INSTALL**

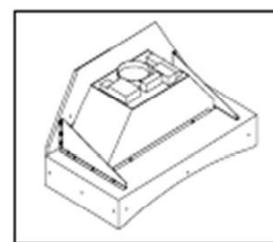

**Step 1:**  
Screw mounting plate to wall

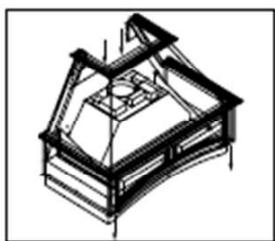

**Step 2:**  
Assemble blower unit (sold separately) to metal liner

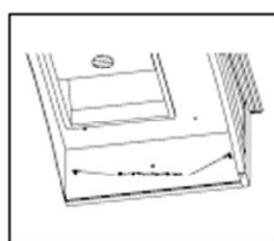

**Step 3:**  
Fasten metal mounting brackets to liner

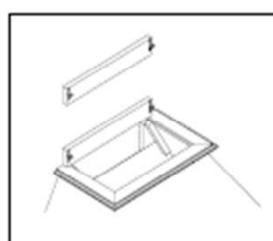

**Step 4:**  
Hang the liner/bracket assembly on the mounting plate (make all electrical and ventilation connections at this point)

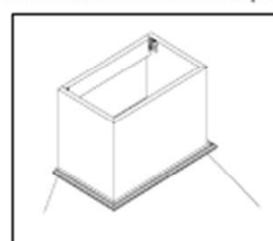

**Step 5:**  
Slip the wood range hood on top of the mounting plate

**Step 6:**  
Fasten wood range hood to liner with (4) screws

**Step 7:**  
If using a chimney (sold separately) mount blocks to wall

**Step 8:**  
Snap chimney in place

## FAQ

### *Free-Standing vs. In-Series*

#### ***FREE – STANDING HOODS***

Free-standing range hoods are mounted to the wall above the cooking surface, and stand alone from any adjacent cabinetry. These hoods will not have flush sides, and typically have design elements or decorative accents that prohibit a cabinet from being installed flush against the sides.

FREE-STANDING MODELS: AX, B, BXHW, C, CX, D, E, E200, ER200, ER600, FX200, G, GT, K200,

#### ***IN-SERIES HOODS***

In-Series hoods are mounted to the wall above the cooking surface, and have completely flush sides. Moldings and decorative accents will not extend past the sides. This allows cabinetry to be installed on either side of the range hood to achieve a continuous design, but can also be used in a stand-alone design. .

IN-SERIES MODELS: A, BX, E300, ER300, ER400, ER500, FX300, J, K300, L2, M, N, P, Q, S, SB100, W, XRA, Z200

### Modification: Removeable top

<b>STANISCI-CRTP</b>	-	0	0	0	0	0	-	-
----------------------	---	---	---	---	---	---	---	---

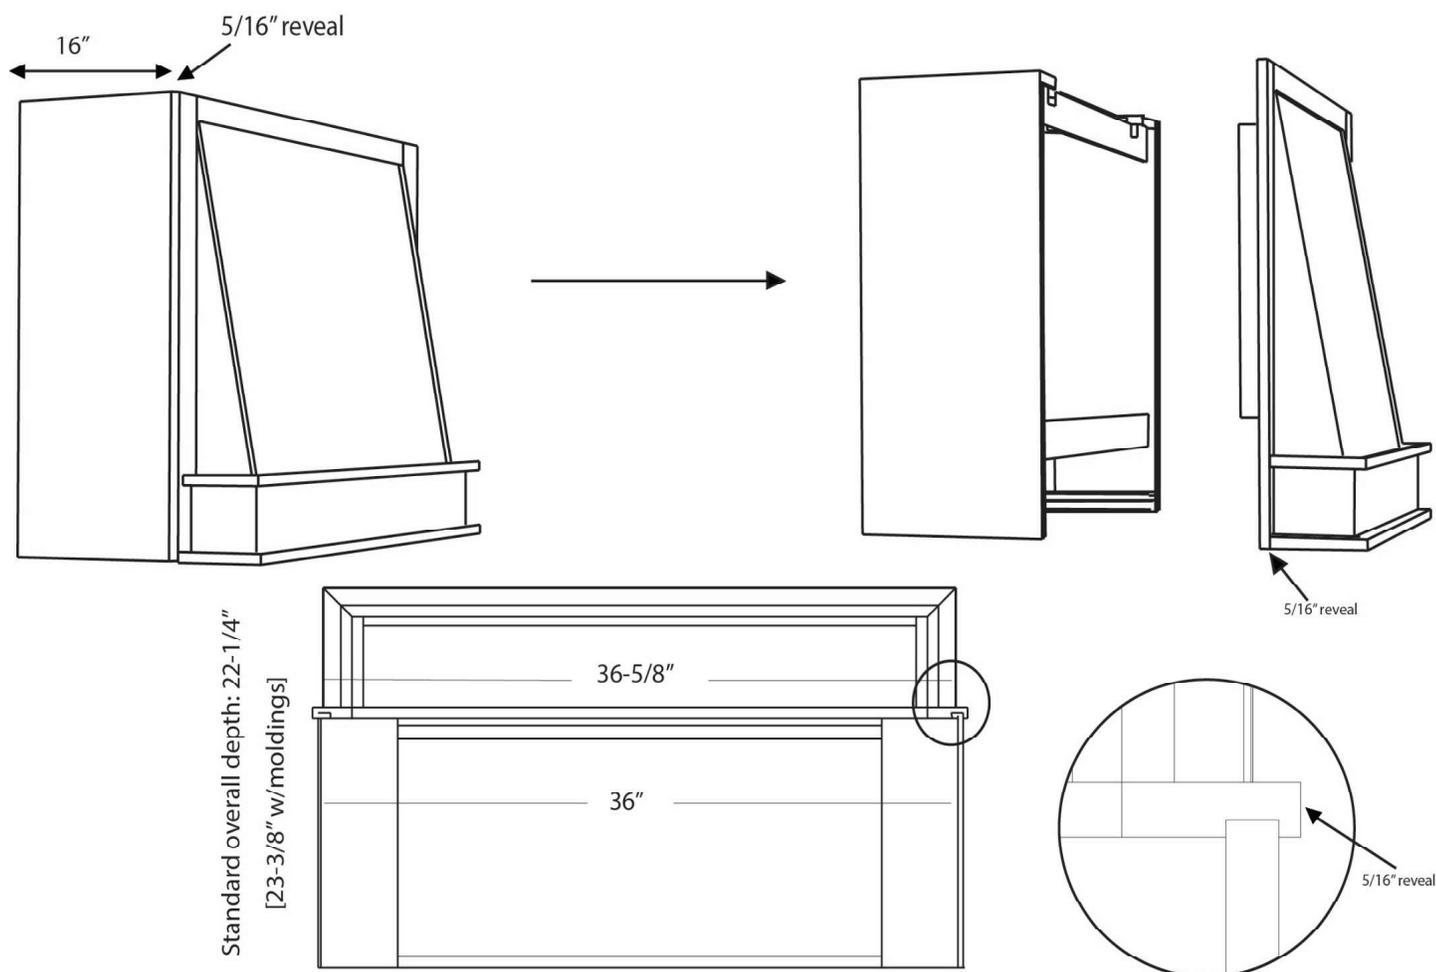

## Removable Front [REM-FRT]

- Entire front section lifts straight up 3/4" and removes
- Vent is easily installed, then front section is reattached
- The rear cabinet box will be 16" deep
- There is a 5/16" reveal on the front frame to box (adds 5/8" to overall width of front section only)
- A minimum 3/4" vertical clearance is needed between hood top and ceiling so that you can slide onto guides
- Cutting or trimming of parts in field will void warranty and compromise structural integrity

**STANISCI**  
DESIGN

**REM-FRT** No Charge

• Applicable Only to Plymouth Series Hoods [STANISCI-PS and STANISCI-PB]

# Hoods

## Ventilator w/Standard Liner - 360 CFM

- 2-Speed fan control
- 5-Watt LED Lighting
- Large easy to clean aluminum mesh filter
- 7" round ducting recommended
- Large capture area. Single Air Ring Fan
- Motor will be mounted inside the hood
- Includes Liner
- For use with Stanisci Design hoods

Sizes fit 30"-36" Stanisci Hoods
