## Description

Andi has an elongated bell shape that complements aesthetic, while also built for optimal illumination. Our Solare glass is a pressed glass that features swirls of white throughout clear glass, which then is colored with a translucent mix of red-orange to yellow. This décor is classic and can be used in various ways. When lit this gives off a light that is functional and soothing. The smooth satin finish on the clear outer layer is a result of an extensive etching process. This handcrafted glass uses a process where every glass is consistently produced using a press mold, keeping variations to a minimum.
