## Description

The Palla 3 spotlight features a diminutive orb-shaped glass, that complements any aesthetic. Our Amber Cloud glass is full of floating, vibrant warm tones that range from light gold to deep amber. When lit, the humid color palette illuminates to exude a harmonious display. This décor is created by rolling molten glass in small bits of brown hues called frit. The result is a multi-layered blown glass, where frit color is nestled between an opal inner layer and a clear glossy outer layer. This blown glass is handcrafted by a skilled artisan, utilizing century-old techniques passed down from generation to generation. Each piece of this décor has its own artistic nature that can be individually appreciated.
