**2 Finishes:** Bronze, Satin Nickle **4 Sizes:** 1 Light, 2 Light, 3 Light, 4 Light

## Description

Our Keno begins with clear blown glass, with a bull-nosed shape and glossy outer finish. We then, using a handcrafting technique, carefully apply a band of actual fine-grained sand to the inner surface of the glass, where the colour is fully saturated into the coating for a bold statement. A final clear protective coating is applied to seal and preserve the accent material. The result is a beautifully textured work of art, comfortable with the irony of sand being applied to a glass that originates from sand. When illuminated, the colors shimmers through the noticeable refractions created by every granule, as the sand patterning is obvious and pleasing. This vanity fixture is equipped with lamp holders, mounted to the plated rectilinear backplate on a die cast fitter.

Other fixtures in the KENO family:
