## Description

Domi has a classical bell shape that complements aesthetic, while also built for optimal illumination. Our Titan glass is a soft off-white cased glass that is handcrafted with spiraling strokes of silver, emphasizing the subtle brush pattern. The silvery rippled design is subdued and harmonious. Unlit, it appears as simply a textured surface like spun silk, but when lit the texture comes alive. The smooth satin finish on the clear outer layer is a result of an extensive etching process, with the texture of the subtle brushing. This blown glass is handcrafted by a skilled artisan, utilizing century-old techniques passed down from generation to generation. The vanity fixture is equipped with decorative lampholders, removable finials, linear rectangular housing, and a removeable low profile oval or rectangular canopy cover.
